I did my best to identify this.

I used a Canon 580EX and the infrared controller that mounts on the camera, but a hot-shoe cord is a lot cheaper and perfectly fine for the small distances you will work in.

Used it mostly to help bring out some detail in the darks in this fellow's clothes, and to then select the lights of the sidewalk and adjust the color and curves a bit.

Really good stuff.

Digital camera and some spare memory cards to hold all the pictures.

I was inside and the Katydid jumped onto a glass door, hence the good underbelly shot.

My daughter and I went out shooting in downtown Blue Ridge Ga at sunset -- she's getting into photography and that makes me excited.

Highland bulls, maybe Scottish Highland bulls, not quite sure.

I had forgotten some of his Photoshop advice on filters, but he just posted a little tutorial on High-Pass Filtering in Photoshop, and it's all coming back to me now.
