About 2 and a half years ago, I wrote up a statement on my Rules of Engagement for Photoshop and Lightroom, in which I laid out what I would and would not do in Photoshop.

Overall she had some really great shots for her first sunset shoot -- she has a much better eye than I do (that's why I'm taking the PPSOP class, so I can catch up to her!!).

Generally, I would hold the reflector on the side of the mushroom opposite the flash and angle it to get light on the opposite side of stalk and underneath mushroom.

We didn't have any rice or beans handy, so I just stuck some macaroni into a Ziploc bag.

Now it's spring, and I think I'm beginning to bloom a bit again.

I've simply broadened the set of tools I have to bring to the table to make (and not take) a photo.

This little lady (I think) is about 4" long.
