We move Centech wiring diagram instruction manuals DjVu, PDF, ePub, txt, doctor appearing. We aspiration be complacent if you go in advance sand again.

Seeing a photo of the underbelly is pretty rare on the interwebs, so here's my contribution.

Signed up for a new class starting next month at PPSOP called Stretching Your Frame of Mind, taught by Joe Baraban.

The advantage of luminosity masking is that it targets certain parts of the the image based on level of brightness, not specific geometry -- so you are adjusting things along a new type of dimension.

Portable flash and controller.

I used a small 10" hand-held reflector, but a sheet of paper would work perfectly too.

I was a bit of a purist with good reason -- still trying to learn how to use that tool called a camera.

Plastic bottle and some extension tubes.

Here are some of the better (and some of the more experimental) results.

comments Labels: 580EX, compact flash, extension tubes, green, insect, katydid, macro, Tettigoniidae Sunday, August 29,

(This is Jenna's, but I cropped and photoshopped this one a bit -- I couldn't let her have all the fun!) And as for me actually taking photos this year, I have.
