I think it's required.

Another advantage is that you also get some good feathering in your masks and don't get a bunch of hard edges when you make adjustments.

One day I'll figure out a decent reason to project old stuff onto new.

View this post with Links and Comments Posted by Brad Wiederholt at 6:08 PM 2 comments Labels: high-pass filter, photo, photoshop Saturday, September 4, 2010 Katydid (Tettigoniidae Pseudophyllinae) The street one over from our cabin is called Katydid Lane.

This was taken with pretty much the same setup as the mushrooms in last post.

Also, going to the Flash Bus show with David Hobby (Strobist) and Joe McNalley as it rolls thru Atlanta in a couple of weeks.

pioneered some techniques on luminosity masking in Photoshop, and co-wrote a couple of tutorials with Equipment The best piece of advice I read was to keep it basic with respect to equipment.

Bag of elbow macaroni.

My thinking and skills have changed since then, and I need to rewrite this statement soon.
