Here are some of the better (and some of the more experimental) results.

Did a bit of research on the web, here's what I discovered and practiced when I started out to the yard.

Plastic bottle and some extension tubes.

The advantage of luminosity masking is that it targets certain parts of the the image based on level of brightness, not specific geometry -- so you are adjusting things along a new type of dimension.

Great all purpose lens for this type of photography.

I did this one.
