I had never tried a concerted effort at shooting mushrooms before; I did shoot those tree fungi in the Los Hongos de Marosa post a few weeks ago, but that was more opportunistic than an all out mushroom photo hunt.

Easy choice: get the tubes.

I also took some of the techniques I've learned from David Nightingale's Chromasia tutorials and applied them as well.

I'm glad I shot it today.

Old slides off of eBay.

I used a 28-135mm zoom lens.

I probably took 10-15 photos of each mushroom group.

Masks in general can be used as a basis to apply different Photoshop adjustments to specific parts of your image.
