One day I'll figure out a decent reason to project old stuff onto new.

pioneered some techniques on luminosity masking in Photoshop, and co-wrote a couple of tutorials with Equipment The best piece of advice I read was to keep it basic with respect to equipment.

I think it's required.

Another advantage is that you also get some good feathering in your masks and don't get a bunch of hard edges when you make adjustments.

I'm not quite sure that I get all the subtleties just yet, but here's a crack a few NS photos.

Photoshop One of my old PPSOP instructors, Pete Saloutos, had taught me a bit about

I didn't use a macro lens because of the next item.

This was taken with pretty much the same setup as the mushrooms in last post.
