We aspiration be complacent if you go in advance sand again.

Again, DOF was an issue with these macros, and handholding both the camera and the flash made it all a bit uncertain.

These photos were all taken by Jenna.

Which brings me to a recheck of my 'rules'.

It's a fantastic trick.

Really helps with fill light.

Don't think I had the maturity or experience back in to understand this (and I certainly don't have it all now, just more of it).

Shot with a 70-200mm lens and a full set of Kenko extension tubes -- Was within about an inch for these shots.

Yes, I've been shooting, but loading mostly to Facebook page -- posting some relatively ok stuff there.

Believe it to be Tettigoniidae Pseudophyllinae, but if you know a more accurate classification, drop me a note below and I'll change it.

Unpacked the bags and went and looked some more, and it turns out there were all sorts of these fungi growing around -- they just started popping into my sight the more I looked and walked around.
