These mushrooms are in dark places as well as light ones, but they are down low in the shadow land, and you need a way to consistently light them up, both from above and below.

Did you notice the lack of tripod above? You don't need one.

For me, the change started with me putting in a darkroom at home and seeing what can be physically done to photos during the process.

Saturday, May 21, 2011 Cabin Moths Was going out shooting this morning.

But until then, random walk experiments continue.

I now see why.

the first thing I noticed was that I had few mushrooms growing in front of
