Plastic bottle and some extension tubes.

Here are some of the better (and some of the more experimental) results.

Portable flash and controller.

The advantage of luminosity masking is that it targets certain parts of the the image based on level of brightness, not specific geometry -- so you are adjusting things along a new type of dimension.

Labels: hand, leaves, studio, white Friday, October 22, 2010 Luminosity Masking Fellow named Tony Kuyper

Did a bit of research on the web, here's what I discovered and practiced when I started out to the yard.

Seeing a photo of the underbelly is pretty rare on the interwebs, so here's my contribution.

Signed up for a new class starting next month at PPSOP called Stretching Your Frame of Mind, taught by Joe Baraban.
