We aspiration be complacent if you go in advance sand again.

Highland bulls, maybe Scottish Highland bulls, not quite sure.

Digital camera and some spare memory cards to hold all the pictures.

I had forgotten some of his Photoshop advice on filters, but he just posted a little tutorial on High-Pass Filtering in Photoshop, and it's all coming back to me now.

Really good stuff.

One option is to buy a dedicated macro lens (the Canon 100mm is a good example) for a few hundred dollars, and that's all you get: a dedicated piece of glass with only one focal length and limited application.

I did my best to identify this.

Unpacked the bags and went and looked some more, and it turns out there were all sorts of these fungi growing around -- they just started popping into my sight the more I looked and walked around.
