Unpacked the bags and went and looked some more, and it turns out there were all sorts of these fungi growing around -- they just started popping into my sight the more I looked and walked around.

Digital camera and some spare memory cards to hold all the pictures.

Really good stuff.

Shot with a 70-200mm lens and a full set of Kenko extension tubes -- Was within about an inch for these shots.

Don't think I had the maturity or experience back in to understand this (and I certainly don't have it all now, just more of it).

It's a fantastic trick.
