Here's a first attempt at luminosity masking of an iPhone photo.

Did you notice the lack of tripod above? You don't need one.

These mushrooms are in dark places as well as light ones, but they are down low in the shadow land, and you need a way to consistently light them up, both from above and below.

For me, the change started with me putting in a darkroom at home and seeing what can be physically done to photos during the process.
