I think it's required.

Another advantage is that you also get some good feathering in your masks and don't get a bunch of hard edges when you make adjustments.

pioneered some techniques on luminosity masking in Photoshop, and co-wrote a couple of tutorials with Equipment The best piece of advice I read was to keep it basic with respect to equipment.

This was taken with pretty much the same setup as the mushrooms in last post.

Also, going to the Flash Bus show with David Hobby (Strobist) and Joe McNalley as it rolls thru Atlanta in a couple of weeks.

I'm not quite sure that I get all the subtleties just yet, but here's a crack a few NS photos.
